

# Stamped Filigrees

## Fine Quality Brass Filigree Findings

- Thin, lightweight filigree findings in three platings: white (-1), silver plate (-3) and gold plate (-4). **New platings coming soon!**
- Filigrees are one-sided unless otherwise noted.
- Please see p. H-6 for more information on brass stampings.

The triangle filigrees above are heavier than most, and work great as end pieces for multistrand designs using beads up to 8mm.
