Tools: Round-nose pliers and cutters

To make this design:

1. Place a 4mm crystal bicone on a head pin and form a simple loop. Repeat 5 times to create a total of six crystal dangles.
2. Use a small jump ring to attach two jet and one black diamond/AB 2x crystal dangles to the loop on an ear thread. Repeat with second ear thread.
3. String a 6mm crystal cube bead, a ceramic gargoyle bead and a clear Bead Bumper on an ear thread. Repeat with second ear thread.

TIP: The Bead Bumpers are nearly invisible but keep the other beads in place, even when the earrings are not being worn.
