Tools: flat-nose pliers, chain-nose pliers, round-nose pliers

(recommended supplies for patina process: rubber gloves, chemical brush, disposable container, goggles)

To make this design:

1. Patina the silver-plated items by following the directions on your oxidizer.
2. Cut a 1½" and a ½" lengths of the chain. You will be wire wrapping your dangles around these pieces.

TIP: Be sure to leave oval links (not figure-eight links) on the ends of your chain pieces so the pins will fit inside the links.

3. Assemble the following dangles:
 - a.) String a crystal bicone onto a head pin; wire wrap onto 1½" length of chain.
Repeat 2 more times, to make a total of 3 dangles. Attach them onto different links of the same chain.
 - b.) String the filigree bead onto an eye pin and wire wrap onto ½" length of chain.
 - c.) Put the 8mm bead cap onto the 6mm pearl and string onto an eye pin and form a wrapped loop.
 - d.) Put the 10mm bead cap onto the 8mm pearl and string onto an eye pin. Attach to the bottom loop of the 6mm flower pearl dangle and create a wrapped loop.

TIP: How to make a wrapped loop:

- a.) String selected beads on the head or eye pin.
 - b.) Use round-nose pliers to grasp the wire ¼" above the bead and bend sharply away from you.
 - c.) Keep bending the wire until you have created a full loop.
 - d.) Now use small chain-nose pliers to grasp the tip of the wire, and bend (wrap) it smoothly around the pin, ending close to the bead(s).
4. Connect the charms together:
 - a.) Connect the lobster clasp to the top of the 6mm pearl with an oval jump ring.
 - b.) Use an oval jump ring to connect the fairy charm to the 8mm pearl.
 5. Clip your "Spritely Seeker" to a zipper.
