2	#06-722-20-19	20mm Swarovski crystal moon pendants, light sapphire

**Tools:** chain-nose pliers, bent chain-nose pliers, round-nose pliers, flush cutters

## To make this design:

1. Cut a section of chain that has 7 long links (both ends should be long links).

## Create centerpiece:

2. Place your big maple leaf charm on the leaf bail and slip the bailed leaf onto the 7-link length of chain. Find the long link closest to the center of the remaining chain (trim ends if needed). Use a jump ring to attach an octagon crystal to the center link. Attach the short piece of chain 2 long links out on each side from the center link with jump rings. On the short link closest to the connection point on each side, attach a leaf charm (rose on right side, aspen on left) with a jump ring.

## Attach charms:

3. To create the design pictured, start with an octagon crystal on the link you attached the centerpiece to in step 2. Using the 3.6mm jump rings, attach charms to every long link moving towards the outside.  
Jump ring exceptions:
  - a. 3mm round crystals (use ball-end head pins and wire wrap directly onto the link)
  - b. Itty-bitty stars (use 2.4mm jump rings)
  - c. Crystal teardrops (use triangle bails)
4. Finish by attaching the leaf toggle clasp to each end of the chain with jump rings.
