14	20-225-49	Size 8 Toho® Japanese glass seed beads, black
1 ½"	40-099-07-9	4.5mm rollo chain, gunmetal
1	52-090-20-9	20" unfinished-end magnetic cable choker, black/white plate

Tools and supplies: cutters, round-nose pliers, adhesive such as Epoxy 330 (#60-230)

See the following technique sheets:

- [Techniques for making earrings](#)

TIP: Assemble large-hole beads of your choice on choker cable and cut cable to length, if desired.

Finishing the cable choker

- When shipped, the smaller piece of the choker's magnet clasp is stored inside the larger piece, leaving one end unfinished.
- Remove smaller magnet end from larger end before gluing. To remove, insert the unfinished end into the hole of the smaller magnet.
- Bend the free end slightly, and while maintaining downward pressure, pull to remove the magnet.
- Apply glue to the unfinished end, then insert into smaller magnet end. Allow adhesive to dry thoroughly.
