1	44-940-57-AS	TierraCast dancing señorita charm, antiqued silver plate
2	37-133-1	4.5mm round jump rings, white
1 pair	31-110	10mm flat-pad earring posts, surgical stainless steel
2	33-235-1	Extra-secure nuts with plastic flange and rubber grip, white
2	60-302	10mm round adhesive dots

**Tools & supplies:** Epoxy 330 adhesive (#60-230), chain-nose pliers, file (#69-048) or sandpaper

## TIPS:

- The skull beads have a design on both sides. Carefully roughen one side of each bead with a file before gluing them to the filigrees.
- Once the glue cures, make the earrings in a flash using adhesive dots to attach the posts.

Design alternative: Instead of posts, make dangly earrings by attaching ear wires such as #34-223-1 to the top of the filigrees.
