1	39-418-7	7x12mm magnetic clasp, antiqued copper plate

**Tools and supplies:** scissors, cutters, flat-nose pliers, round-nose pliers, adhesive such as Bead Fix™ (#60-242)

## TIPS:

- Make sure you don't cross the strands of Soft Flex.
- It may be necessary to ream some of the gemstone beads, due to varied bead-hole sizes. Use the battery-operated bead reamer (#69-058) to enlarge bead holes.
- The large-hole 6mm beads make an interesting design element, since you can string all three strands of beading cable and leather cord through the beads at once.
- Use adhesive to secure the beading cable and leather cord in the coil ends.
