30-35	#20-228-042	Size 11 Toho® Japanese glass seed beads, crystal

**Tools and Supplies:** Fabric, scissors, Jewel Bond adhesive, big-eye needle, super glue

### To make this design:

1. Cut a 1' long piece of Kreinik cord, thread your needle and tie a knot at one end.
2. Cut a small piece of fabric, roughly 3½"x 1½".
3. Center the alligator clip on the fabric, draw an outline on the cloth and fold edges along outline.
4. Using the big-eye needle, sew from the bottom side to the top side of the fabric, stitching the folded sides together.  
**NOTE:** Instead of sewing, you can glue the folded sides using an adhesive like Jewel Bond.
5. Attach flower and ladybug beads to the fabric, one at a time, sewing from underside of fabric to top. When using center-drilled beads (like the flower beads), first thread the bead, then add a seed bead and go back through the larger bead until the seed bead rests at the center of the flower bead. The seed bead functions as a flower piston.
6. Repeat until desired effect is achieved or until entire fabric is covered with beads.
7. Glue fabric to the alligator clip using super glue.
