

“Lava Flow” Earrings

As seen in the 2009 Spring Supplement

Created by: Evette Rana

Suggested Materials:

<u>Qty.</u>	<u>Stock #</u>	<u>Name</u>
2	21-005-193-11	20mm puffed coin gemstone beads, brown lava stone
4	29-555-10-081	10mm round shell pearl beads, bronze
68	05-000-03-157	3mm Swarovski® round crystal beads, crystal/copper
6	37-722-7	2" standard eye pins , antiqued copper plate
6	37-415-6	1.5" thin head pins, antiqued brass plate
8	37-136-7	5mm round jump rings, antiqued copper plate
2	44-153-7	17x25mm triangle filigrees, antiqued copper plate
2	34-323-8	French hook ear wires, copper plate

Tools: flush cutters, round-nose pliers

To make this design:

1. Add the crystals and beads to the head and eye pins as pictured, and make simple loops. (Use the techniques for making earrings on the back.)
2. Use jump rings to attach these dangles to each other and to the filigrees, as shown.
3. Attach the ear wires to the top loop on the filigrees.

TIP: Due to their many holes and bubbles, lava stone beads add great texture, but not a lot of weight, to jewelry designs.

Techniques for Making Earrings

Basic earrings: Gently open the loop on the earring component, (see jump ring hint) and insert the earring dangle loop. Close the loop.

Chandelier earrings: Attach charm or connector to earring component (see jump ring hint). Attach dangles by attaching beaded head and eye pins to charm or connector before closing the loop on the dangle.

Ear threads: Ear-thread designs can be changed every day. Just slide beads on and wear. The next day re-arrange yesterday's beads or slide on a whole new design! To keep beads in place use SmartBeads or Bead Bumpers™.

Jump-ring hint:

When you open and close jump rings, twist sideways instead of "ovalling" them. This keeps their shape better, which makes them easier to close all the way.

To make nice loops on head or eye pins:

1. String selected beads on the head or eye pin.
2. Keep about 8mm (1/3") of wire. Cut off any extra.
3. Use round-nose pliers to grasp the wire just above the bead (at the arrow), and bend sharply away from you.
4. Now use small round-nose pliers to grasp the tip of the wire, and bend it smoothly around the pliers down close to the beads.

To make nice wire-wrapped beaded head and eye pins:

(For best results, use both chain-nose and round-nose pliers.)

1. Use chain-nose pliers to grasp the wire just above the top of the bead.
2. Use your fingers to bend the wire sharply over the top of the pliers, at a 90° angle. You should have 2-3mm of straight wire between the bead and the bend (less for fine-gauge wire, more for heavy wire or more wraps).
3. Use round-nose pliers to grasp a spot just above the bend, and use your fingers to smoothly bend the wire all the way around the tip of the pliers. (For different sizes of loops, bend the wire around thinner or thicker portions of the pliers' tip.)
4. Now use round-nose pliers to grasp the wire firmly across the loop. Use your fingers or chain-nose pliers to carefully wrap the wire around the stem. For best control, experts recommend you break this step into a series of half wraps.
5. Trim excess with flush cutters.
