

“Linked” Bracelet

As seen in the Rings & Things 2007 Spring Supplement

Created by: Mollie Valente

Suggested Materials:

<u>Qty.</u>	<u>Stock</u>	<u>Name</u>
1	#82-920-001-14	Stretchy nylon-covered “O” ring, antiqued gold
15”	#40-099-19-4	4.6mm drawn cable footage chain, gold plated
1	#49-997-03-AG	3mm cast hexagon bicone bead, antiqued gold
1	#20-605-011	5mm round freshwater potato pearl, white
1	#20-638-09-242	8mm faceted freshwater potato pearl, garnet
2	#49-954-04-AG	4x1mm cast flower spacers, antiqued gold
1	#37-415-2	1.5” thin head pin, yellow

Tools needed: Side cutters, round-nose pliers, chain-nose pliers, flat-nose pliers

To make this design:

1. Using side cutters, cut a 15” length of chain from the spool.
2. Use flat-nose pliers and chain-nose pliers to form the chain into a continuous circle by attaching the chain’s end links to a stretchy nylon covered ring.
3. Fold the chain in half and identify the center link.
4. Make a pearl dangle by stringing the following beads onto a thin head pin: one garnet faceted pearl, two gold plated flower spacers, one white potato pearl, and one hexagon bicone. Form a loop at the end of the head pin with round-nose pliers. Attach the loop to the center chain link. Use chain-nose pliers to complete wire-wrapping the loop.
5. Close the bracelet by threading the pearl through the stretchy ring.
