1	#39-890-02	"S" hook clasp, solid copper
1	#82-500-08	8oz EasyCast Epoxy Kit
1		copyright-free image (cut to size and sealed)

**Tools and supplies:**

shears (#69-230)  
Two-hole metal punch (#69-235)  
hammer (#69-126)  
side cutters (#65-500)  
round-nose pliers (#65-200)  
2 pair flat-nose pliers #65-080  
resin mixing set (#82-599)  
Bead Fix™ adhesive (#60-242)  
liver of sulfur XL gel (#86-324)  
copper restrip (available from stained glass suppliers)  
sand paper (hardware store)  
rubber cement (office supply store)  
0000 steel wool (hardware store)  
super fine glitter (craft store)  
texture plate

**TIPS:**

- Laminate or seal both sides and edges of image.
- Hammer pattern with texture plates, punch holes and antique prior to creating bezel.
- Create bezel using copper restrip and Bead Fix™ adhesive.
- To prevent the image from floating, glue it to the bottom of the bezel cup and allow it to dry thoroughly prior to adding resin.
- Add glitter once resin is poured into the bezel.
- Create dangles from seed beads and butterfly crystals on head pins. Place at various locations along chain. Not all size 11 seed beads will fit on the head pins. Put ones with smaller holes aside for another project.
- Open the last link on the chain to attach the clasp.
