

“Snowy” Macramé Bracelet

As seen in the 2010 Super Supplement

Created by: Rita Hutchinson

Suggested Materials:

<u>Qty.</u>	<u>Stock #</u>	<u>Name</u>
1	41-120-81-8	10x2x6mm ornate prong bail, copper plate
1	44-780-01	30x16mm dog tags (blanks) with hole, copper
2	28-615-526	Two-sided tiny ceramic snowflake beads, raku
8 ft	61-210-10-00	10-lb test hemp cord assortment (use 4 ft each of 2 colors)

Tools and supplies: scissors, Rings & Things metal stamping tool kit (#69-299) 19092, 1/8" alphanumeric stamp set (#69-240-01) 18872, liver of sulfur gel (#86-324)

TIPS:

- It is helpful to anchor knotting projects. A clipboard works well for this purpose. Fold both pieces of cord in half and clamp under the clip. Or use a piece of foam core or Styrofoam™ and straight pins to secure the cord.
- The knotted pattern is created using alternating half-hitch knots. Max Lunger's book, *Hemp Masters: Ancient Hippie Secrets for Knotting Hip Hemp Jewelry* (#62-250) offers more information on macramé techniques.
