**Tools:** scissors, cutters, chain-nose pliers, dimensional glaze (such as JudiKins© Diamond Glaze™), glue stick, hole-punch

## To make this design:

1. Cut image to size using the dog tag as a template.
2. Punch hole in image the same size as the hole in the dog tag.
3. Glue image onto the tag with a glue stick.
4. Add a small amount of dimensional glaze and spread carefully with your finger.
5. Add a dab of glaze onto back of charms and place on tag. Let everything dry completely.
6. Use jump rings to attach tag and toggle clasp to a 21" piece of chain.

## Jump-ring hint:

When you open and close jump rings, twist sideways instead of "ovalling" them. This keeps their shape better, which makes them easier to close all the way.
